Mr. James Ariotti  
Gypsum Resource Development, Inc.  
P. O. Box 1140  
Huntington, Utah 84528

Dear Mr. Ariotti:

We have reviewed your proposal to conduct your surface mining operation under a Notice of Intent instead of a Plan of Operations. We have no problem with the proposed change, as you have agreed to include the terms and conditions of the approved Plan of Operations in your Notice of Intent.

We are therefore closing the case file on your Plan of Operations, U67-P91-05, as you will be operating under Notice of Intent U67-P92-02. Any changes in the Notice of Intent will require an amendment at least 15 days prior to the onground change.

A new Plan of Operations will be required when total surface disturbance will exceed five acres. A complete plan should be filed at least 90 days prior to the proposed expansion.

Acceptance of this Notice of Intent will not now, nor in the future, serve as a determination of the validity of any mining claim to which it may related.

Sincerely yours,

BTom Gnojek  
Acting  
Area Manager

Spoke to Neil Sammons,  
now back up to Plan size  
> 8 acres now. Neil  
to recheck near future  
Need to notify operator need have.
